

# IMAGINE SOLIDARITY: WHY WE CHOSE SOLIDARITY OVER THE IARPP CONFERENCE

Wednesday 19.6.19 at 20:30

This evening is organized by the Pesuactive Conference Group ,In response to the IARP position towards the conference in Tel Aviv.

This group supports the Palestinian appeal to change the placement of the Conference so that the local socio-political context is taken into account, according to the spirit of the relational approach.

The unwillingness of the organizers to change the place of the conference reflected the difficulty in acknowledging the issue of accessibility as a reflection of the occupation in general.

The desire to remain virtuous in the eyes of ourselves without having to pay the price of oppression is the enactment of the Israeli position.

We would like to dedicate this evening to the discussion and observation of these processes, using the professional tools we possess.
